

STUDY TOUR – 2023 BATCH

The study tour was conducted from 25.11.2024 to 29.11.2024 to provide students with practical exposure to agricultural research, education, and agribusiness institutions in Tamil Nadu. Students visited major ICAR and TNAU research centers, agricultural and horticultural colleges, veterinary and irrigation institutes, and specialized units related to crop improvement, farm machinery, food engineering, agribusiness development, and natural resource management. The tour enhanced students' practical understanding and effectively complemented their theoretical learning.
